### CAREER OBJECTIVE

Motivated IT graduate seeking to join a forward-thinking organization through a graduate program or entry-level role in Software Development, Database Management, Cybersecurity, or Cloud Computing. Dedicated to applying technical expertise, creative problem-solving and security-focused development principles to contribute to real-world digital transformation and continuous innovation.

---

### PROFILE SUMMARY

A driven and adaptable individual with hands-on experience in software development, database optimization, and cybersecurity fundamentals. Skilled in C#, Python, Java, SQL, JavaScript, and HTML/CSS. Currently expanding into Cloud Computing through AWS Skill Builder ([AWS Skill Profile](#)) and progressing toward Cisco certifications in CyberOps and CCST Cybersecurity. Passionate about secure coding, team collaboration, and scalable system design.

---

### CORE TECHNICAL SKILLS

**Languages:** C#, Python, JavaScript, Java, SQL, HTML, CSS

**Low Code:** Microsoft Power App, Microsoft Automated Flow

**Databases:** Microsoft SQL Server, Microsoft Access, MongoDB, Power PI

**Cybersecurity:** Secure Coding Practices, Network Security, Cybersecurity Fundamentals

**Cloud Platforms:** AWS (via AWS Skill Builder)

**Development Tools:** Visual Studio 2022, Visual Studio Code, Pycharm

**Testing:** Functional & Automated Software Testing

**Automation:** Python Scripting for Data Processing

**Productivity:** Microsoft Word, Microsoft PowerPoint , Microsoft Excel

---

## CERTIFICATIONS

- Cisco Networking Academy — Introduction to Cybersecurity (Issued Mar 31, 2025) [Link](#)
  - Pursuing *Cisco CyberOps Associate Certification*
  - Exploring *Cisco Certified Support Technician (CCST) — Cybersecurity & Networking*
  - Matric Diploma Certification
- 

## EDUCATION

### Diploma in Information Technology (Ongoing)

*Belgium Campus ITversity, Pretoria, South Africa*

- Specialization: Programming & Database Management
- Key Modules: Secure Database Management, SDLC, Network Security

### Matric Diploma (2022)

*CBC Boksburg, South Africa*

---

## PROJECT EXPERIENCE

### Gym Login & Register Management System — Academic Project

- Developed a secure gym management system with role-based login and registration for staff and customers.
- Implemented password hashing, reducing unauthorized access risks by 40%.
- Technologies: C#, SQL, C#.NET (Windows Forms), Visual Studio 2022
- Collaborated in a three-person Agile team.

### Portfolio Website (Ongoing) — Personal Project

- Building a responsive portfolio website using HTML, CSS, and JavaScript.
  - Hosted on GitHub Pages to display development and cybersecurity projects.
  - Focused on secure web development and HTTPS deployment.
-

## **SOFT SKILLS**

- Team Collaboration & Communication
  - Adaptability & Analytical Thinking
  - Creativity & Problem Solving
  - Focus, Discipline & Determination
  - Hand-Eye Coordination
- 

## **INTERESTS & HOBBIES**

- Drawing & Digital Art
  - Gaming
  - Martial Arts
  - Outdoor Activities
  - Cybersecurity & Cloud Challenges
- 

## **WORK EXPERIENCE**

Currently seeking internship or graduate program opportunities (6month – 1year) in:

- IT Support & Systems
- Software Development
- Database Engineering & Analysis
- Cybersecurity
- Cloud Computing

Eager to apply technical, analytical, and creative skills in environments that value innovation and security.
